Have there been changes to the professionals providing services to your plan?

PART III – ERISA BOND REQUIREMENTS

If the plan covers employees other than 100% owners or partners of a partnership, or their spouses, the plan's trust is required to be covered by an ERISA bond. The face value of the bond must equal, for each day of the plan year, at least 10% of the value of the trust assets, up to a maximum bond of \$500,000. In addition, if the trust holds any assets which are considered "non-qualified," these assets must be bonded at 100% of their fair market value. "Non-qualified" assets are assets which are not held in a regulated financial institution (e.g. bank, brokerage firm, insurance company, etc.) and/or which are not publicly traded. It is your responsibility to determine the fair market value of these assets. Note also that the \$500,000 maximum bond requirement does not apply if the plan holds non-qualified assets in excess of this limit.

In lieu of these bonding requirements, you may obtain an independent auditor's report of the trust.

Provide the following information regarding the bond that is currently in force and attach a copy of the face page of the policy:

Name of Surety Company:

Amount of Coverage:

Expiration Date:

If your bond coverage is insufficient, please contact your plan administrator immediately.
